# MY INTRODUCTION

Hi I'm Ljubisha and i'm creative digital designer and front-end / client-side developer based in Macedonia.

With more than 15 years of experience in the IT and Marketing industry, I was able to create unique concepts and implement pixel perfect designs. Also I had the honor to work with many great marketing agencies* and powerful brands**.

I love playing with interfaces, code interactive websites and animate visual pieces.

This document represent my personal CV/Resume. My initial idea was to make something that was simple and interactive, something fun for the visitor but also promoting the content and my skills.

| | |
